28-101 Definitions

“Bicycle” means a device, including a racing wheelchair, that is propelled by human power and on which a person may ride and that has either:

- (a) Two tandem wheels, either of which is more than sixteen inches in diameter.
- (b) Three wheels in contact with the ground, any of which is more than sixteen inches in diameter.

28-601 Definitions

“Stop”, if required, means complete cessation from movement.

A Word About Stop Signs-

Arizona traffic law defines a stop as-

“Stop, if required, means complete cessation from movement.”

While bicyclists and motorists are required to stop at stop signs, it is **not** necessary to put your foot on the ground to meet the letter of the law.

Running stop signs on major streets is extremely dangerous and can result in a fine of \$212 with points added to your driver's license.

Running stop signs sets a bad example for younger riders.

28-704. Minimum speed limits; requirement to turn off roadway***This statute has been applied to bicyclists***

- A. A person shall not drive a motor vehicle at such a slow speed as to impede or block the normal and reasonable movement of traffic except when either of the following applies:
1. Reduced speed is necessary for safe operation or in compliance with law.
 2. The reasonable flow of traffic exceeds the maximum safe operating speed of the lawfully operated implement of husbandry.
- B. If the director or local authorities within their respective

jurisdictions determine on the basis of an engineering and traffic investigation that slow speeds on any part of a highway consistently impede the normal and reasonable movement of traffic, the director or local authority may determine and declare a minimum speed limit below which a person shall not drive a vehicle except when necessary for safe operation or in compliance with law.

- C. If a person is driving a vehicle at a speed less than the normal flow of traffic at the particular time and place on a two-lane highway where passing is unsafe, and if five or more vehicles are formed in a line behind the vehicle, the person shall turn the vehicle off the roadway at the nearest place designated as a turnout by signs erected by the director or a local authority, or wherever sufficient area for a safe turnout exists, in order to permit the vehicles following to proceed.

28-725. Limitations on overtaking on the left

A person shall not drive a vehicle to the left side of the center of the roadway in overtaking and passing another vehicle proceeding in the same direction unless the left side is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit the overtaking and passing to be completed without interfering with the safe operation of any vehicle approaching from the opposite direction or any vehicle overtaken.

The overtaking vehicle shall return to the right-hand side of the roadway before coming within one hundred feet of any vehicle approaching from the opposite direction.

28-735. Overtaking bicycles; civil penalties

- A. When overtaking and passing a bicycle proceeding in the same direction, a person driving a motor vehicle shall exercise due care by leaving a safe distance between the motor vehicle and the bicycle of not less than three feet until the motor vehicle is safely past the overtaken bicycle.
- B. If a person violates this section and the violation results in a collision causing:
1. Serious physical injury as defined in section 13-105 to another person, the violator is subject to a civil penalty of up to five hundred dollars.
 2. Death to another person, the violator is subject to a civil penalty of up to one thousand dollars.

- C. Subsection B of this section does not apply to a bicyclist who is injured in a vehicular traffic lane when a designated bicycle lane or path is present and passable.

28-756. Method of giving hand and arm signals

- A. Except as provided by subsection B, a person shall give all hand and arm signals required by this article from the left side of the vehicle in the following manner, and the signals shall indicate as follows:
1. Left turn. Hand and arm extended horizontally.
 2. Right turn. Hand and arm extended upward.
 3. Stop or decrease speed. Hand and arm extended downward.
- B. A person operating a bicycle may give a right turn signal by extending the right hand and arm horizontally to the right side of the bicycle.

28-797. School crossings; civil penalty; assessment; definition.

Law applies to bicyclists in the roadway or in bike lanes and makes it clear that school zones shall be signed as no passing zones.

Excerpts:

- F. A vehicle shall not proceed at a speed of more than fifteen miles per hour between the portable signs placed on the highway indicating that there shall be no passing, that school is in session and that the driver shall stop when children are in the crosswalk.
- G. When a school authority places and maintains the required portable signs indicating that there shall be no passing, that school

is in session and that the driver shall stop when children are in the crosswalk, all vehicles shall come to a complete stop at the school crossing when the crosswalk is occupied by a person.

- H. A vehicle approaching the crosswalk shall not proceed at a speed of more than fifteen miles per hour between the portable signs placed on the highway indicating that there shall be no passing, that school is in session, that the driver shall stop when children are in the crosswalk and that the civil penalty will double.

28-811. Parent and guardian responsibility; applicability of article

- A. The parent of a child and the guardian of a ward shall not authorize or knowingly permit the child or ward to violate this chapter.

- A. A person riding a bicycle on a roadway at less than the normal

speed of traffic at the time and place and under the conditions then existing shall ride as close as practicable to the right-hand curb or edge of the roadway, except under any of the following situations:

1. If overtaking and passing another bicycle or vehicle proceeding in the same direction.
2. If preparing for a left turn at an intersection or into a private road or driveway.
3. If reasonably necessary to avoid conditions, including fixed or moving objects, parked or moving vehicles, bicycles, pedestrians, animals or surface hazards.
4. If the lane in which the person is operating the bicycle is too narrow for a bicycle and a vehicle to travel safely side by side within the lane.

- B. Persons riding bicycles on a roadway shall not ride more than two abreast except on paths or parts of roadways set aside for the exclusive use of bicycles.
- C. A path or lane that is designated as a bicycle path or lane by state or local authorities is for the exclusive use of bicycles even though other uses are permitted pursuant to subsection D or are otherwise permitted by state or local authorities.
