

Bike with your kids

Demonstration ride and expo • Sunday, Oct. 30, 9 a.m. at Brandi Fenton Park

Enjoy the cool fall temps and let the kids play in the park while you check out family bicycle rigs from across Tucson.

Everyday family bicycling commuters will be on hand to share their rigs, answers questions, and talk about the tips and tricks they've learned to make cycling with children an everyday activity. Family cyclists can also help you choose and map the safest, low-stress bike routes to get you from your neighborhood... to the places you need to go.

Mechanics from BICAS will also be on hand to provide light maintenance and repairs to your existing rigs and help answer questions about easy modifications that can be made to attach trailers.

After the demonstration, please join us for a nice, easy ride along the Rillito River Path to the St. Phillip's Plaza Farmers' Market.

Light snacks and refreshments at Brandi Fenton provided by the Living Streets Alliance.

This event is in partnership with TucsonVelo.com, the Tucson Bicycle Belles, TucsonMama.com, BICAS and the Living Streets Alliance
